

The **GREENER** way to wrap pallets! (and reduce costs)

A revolutionary machine stretch film...

Are you under pressure to be more environmentally responsible and reduce your operating costs? With our specially engineered machine stretch films you can wrap more pallets with less material, reducing your plastic usage and wrapped pallet cost by up to 50%.

✓ **REDUCED PACKAGING WASTE**

Our films weigh less than traditional stretch films but still offer the same wrapping performance. This means you use up to 60% less plastic.

✓ **WRAP MORE PALLETS WITH LESS**

The super stretch of our films allow you to wrap more pallets with less material. Up to a 50% cost reduction per wrapped pallet is not uncommon.

CASE STUDY – LEADING FOOD PACKAGING MANUFACTURER

A leading UK food packaging manufacturer experienced the following benefits with our stretch films...

Increase from 32 to 85 pallets wrapped per roll

A 2.6 tonne reduction in plastic packaging waste

Cost savings of over £5,000 annually
